Re: Anaconda Reclamation

Dear John:

Confidential Claim Retracted

Authorized by: SCDate: 6/12/13

As promised, enclosed herewith please find copies of the original proposal and executed contract for work on the Anaconda reclamation project. Please review and give me your thoughts on the alternatives I presented to you. Recall the following alternatives:

- Work full-time on this project as the Reclamation Coordinator; or
- Work as a consultant on this project; or
- Work as a member of a reclamation project committee.

Please feel free to develop your own concept on addressing this major issue. You, of course, are aware of the magnitude of the problem and the environmental impact statement review process.

With best regards,

Ron J. Solimon
